

G22 — Fiche 1 — Intelligence artificielle & données

Pose la question portant sur le groupe de mots souligné — fiche 1/10

 B1-B2

 Tout niveau PEIP2

 marc.vasseur@polytech-lille.fr

 Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

1 The AI model processes new data every hour.

TA QUESTION

2 The engineers are training a new neural network this week.

TA QUESTION

3 The startup has hired twelve data scientists this year.

TA QUESTION

4 The company released its first chatbot in 2021.

TA QUESTION

5 Two researchers were reviewing the algorithm when they found the bug.

TA QUESTION

6 The team will present their findings in Geneva.

TA QUESTION

7 The company is going to launch a new AI assistant.

TA QUESTION

8 She has been coding this application for three months.

TA QUESTION

9 By the time the update was released, the bug had already affected thousands of users.

TA QUESTION

10 By 2030, the lab will have trained over a hundred AI models.

TA QUESTION

G22 — Fiche 2 — Énergie renouvelable & climat

Pose la question portant sur le groupe de mots souligné — fiche 2/10

✚ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 Engineers prefer solar panels **because they reduce carbon emissions.**

TA QUESTION

- 2 **New wind turbines** are transforming the region's energy supply.

TA QUESTION

- 3 The plant has reduced its emissions **by thirty per cent.**

TA QUESTION

- 4 The engineers travelled **two hundred kilometres** to inspect the wind farm.

TA QUESTION

- 5 The team was monitoring emission levels **at 6 AM yesterday.**

TA QUESTION

- 6 **The new regulations** will affect every manufacturer in the country.

TA QUESTION

- 7 The city is going to choose **a new supplier for green electricity.**

TA QUESTION

- 8 The committee had already rejected **two proposals** before approving this one.

TA QUESTION

- 9 Scientists have been measuring sea levels **since 1990.**

TA QUESTION

- 10 If the price of batteries keeps falling, **electric heating** will become standard.

TA QUESTION

G22 — Fiche 3 — Exploration spatiale

Pose la question portant sur le groupe de mots souligné — fiche 3/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 The agency launches a new satellite roughly **twice a year**.

TA QUESTION

- 2 The probe is currently approaching **the outer edge of the solar system**.

TA QUESTION

- 3 The mission has cost the agency **almost two billion euros**.

TA QUESTION

- 4 The rover discovered **traces of frozen water** beneath the surface.

TA QUESTION

- 5 The crew were repairing the solar panel **when the alarm went off**.

TA QUESTION

- 6 The next spacecraft will carry **four astronauts** to the station.

TA QUESTION

- 7 The agency is going to send a robotic lander to **the moon's south pole**.

TA QUESTION

- 8 The engineers will have finished testing the new engine **by next spring**.

TA QUESTION

- 9 **The satellite** had already left orbit before the ground team noticed the fault.

TA QUESTION

- 10 If the launch window closes, the mission will be delayed **by a month**.

TA QUESTION

G22 — Fiche 4 — Biotechnologie & santé

Pose la question portant sur le groupe de mots souligné — fiche 4/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 The laboratory tests new compounds **several times a week**.

TA QUESTION

- 2 The team is currently trialling the vaccine **on volunteers**.

TA QUESTION

- 3 Researchers have identified **a gene linked to the disease**.

TA QUESTION

- 4 The hospital treated **more than three thousand patients** last winter.

TA QUESTION

- 5 She was analysing the samples **when she noticed the contamination**.

TA QUESTION

- 6 The clinic will open a new research wing **next autumn**.

TA QUESTION

- 7 The institute is going to recruit **fifty volunteers** for the trial.

TA QUESTION

- 8 They have been developing this treatment **since 2018**.

TA QUESTION

- 9 By the time the results came in, **the patient** had already recovered.

TA QUESTION

- 10 If researchers had found the mutation earlier, the clinical trial would have started **in spring**.

TA QUESTION

G22 — Fiche 5 — Cybersécurité & réseaux

Pose la question portant sur le groupe de mots souligné — fiche 5/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 The system scans the network for threats every few minutes.

TA QUESTION

- 2 The security team is currently investigating a data breach.

TA QUESTION

- 3 The company has suffered three cyberattacks this year.

TA QUESTION

- 4 A hacker accessed the database through an outdated plugin.

TA QUESTION

- 5 The analysts were tracing the attack when the server went offline.

TA QUESTION

- 6 The firm will update its firewall next week.

TA QUESTION

- 7 The bank is going to introduce two-factor authentication for all accounts.

TA QUESTION

- 8 The team will have patched every vulnerability by Friday.

TA QUESTION

- 9 The attackers had already stolen the data before anyone noticed.

TA QUESTION

- 10 If the company doesn't train its staff, breaches will keep happening.

TA QUESTION

G22 — Fiche 6 — Robotique & automatisation

Pose la question portant sur le groupe de mots souligné — fiche 6/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 The factory uses robots **for most of its assembly lines**.

TA QUESTION

- 2 The engineers are currently calibrating **the robotic arm**.

TA QUESTION

- 3 The plant has automated **nearly sixty per cent** of its production.

TA QUESTION

- 4 The team built the first prototype **in only six weeks**.

TA QUESTION

- 5 **A technician** was adjusting the sensor when it suddenly stopped working.

TA QUESTION

- 6 The new robots will replace **some of the manual tasks**.

TA QUESTION

- 7 The company is going to double its robotic workforce **next year**.

TA QUESTION

- 8 The engineers have been improving the robot's balance **since January**.

TA QUESTION

- 9 By the time the inspector arrived, **the robot** had already completed the task.

TA QUESTION

- 10 If the sensors had been more accurate, the robot wouldn't have collided with **the shelf**.

TA QUESTION

G22 — Fiche 7 — Télétravail & carrières modernes

Pose la question portant sur le groupe de mots souligné — fiche 7/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 Many engineers now work from home **twice a week**.

TA QUESTION

- 2 Her team is currently trialling **a four-day week**.

TA QUESTION

- 3 The company has hired remote employees from **twelve different countries**.

TA QUESTION

- 4 She moved to Lisbon **because her company allowed remote work**.

TA QUESTION

- 5 He was attending a video call **when the connection failed**.

TA QUESTION

- 6 The firm will introduce flexible hours **next quarter**.

TA QUESTION

- 7 The manager is going to reorganise **the whole team**.

TA QUESTION

- 8 She will have finished her onboarding **by the end of the week**.

TA QUESTION

- 9 He had already changed jobs **three times** before turning thirty.

TA QUESTION

- 10 If the company paid better salaries, **more engineers** would stay.

TA QUESTION

G22 — Fiche 8 — Véhicules électriques & transport

Pose la question portant sur le groupe de mots souligné — fiche 8/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 The city charges electric buses overnight at the depot.

TA QUESTION

- 2 The manufacturer is currently testing a new battery design.

TA QUESTION

- 3 Sales of electric vehicles have doubled in the last two years.

TA QUESTION

- 4 The company opened its first charging station in Lille.

TA QUESTION

- 5 The engineers were road-testing the prototype when it broke down.

TA QUESTION

- 6 The new model will travel four hundred kilometres on a single charge.

TA QUESTION

- 7 The government is going to ban new petrol cars from 2035.

TA QUESTION

- 8 They have been developing this battery technology for almost a decade.

TA QUESTION

- 9 By the time the subsidy ended, the factory had already sold ten thousand cars.

TA QUESTION

- 10 If the battery had been lighter, the car would have gone further.

TA QUESTION

G22 — Fiche 9 — Informatique quantique & innovation

Pose la question portant sur le groupe de mots souligné — fiche 9/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

1 The lab runs quantum experiments almost every day.

TA QUESTION

2 The team is currently building a more stable qubit.

TA QUESTION

3 The university has published several papers on quantum encryption.

TA QUESTION

4 The researchers achieved a major breakthrough last spring.

TA QUESTION

5 She was presenting her research when a journalist interrupted.

TA QUESTION

6 This technology will transform the entire computing industry.

TA QUESTION

7 The startup is going to raise funds for its quantum chip.

TA QUESTION

8 By 2035, engineers will have built far more powerful quantum computers.

TA QUESTION

9 The prototype had already failed twice before the team fixed the cooling system.

TA QUESTION

10 If the funding hadn't been approved, the project would have been cancelled.

TA QUESTION

G22 — Fiche 10 — Ingénierie durable & villes intelligentes

Pose la question portant sur le groupe de mots souligné — fiche 10/10

✂ Pour chaque phrase, pose la question en anglais dont la réponse est le groupe de mots **souligné**.

- 1 The city monitors air quality **in real time**.

TA QUESTION

- 2 Engineers are currently redesigning **the water treatment plant**.

TA QUESTION

- 3 The council has planted **over five thousand trees** this decade.

TA QUESTION

- 4 The city built its first smart grid **in 2017**.

TA QUESTION

- 5 The team was installing new sensors **when the storm hit**.

TA QUESTION

- 6 The new district will reduce energy consumption **by forty per cent**.

TA QUESTION

- 7 The municipality is going to convert the old factory into **a research hub**.

TA QUESTION

- 8 Residents have been recycling **almost all their waste** since the new policy.

TA QUESTION

- 9 By the time the report was published, the city had already reduced **its emissions**.

TA QUESTION

- 10 If the city invested more in public transport, **traffic** would decrease significantly.

TA QUESTION
