

V05 — Word Formation — Prefixes & Suffixes

La formation des mots — préfixes et suffixes

 B1-B2

 S3-S4

 marc.vasseur@polytech-lille.fr

 La formation des mots par préfixes et suffixes permet de comprendre et mémoriser le vocabulaire plus efficacement. Un mécanisme puissant pour le B2+.

1. Préfixes essentiels

PRÉFIXE	SENS	EXEMPLES
un-	négatif / contraire	unclear, uncertain, unsuccessful, unethical
in-/im-/ir-/il-	négatif	inefficient, impossible, irregular, illegal
dis-	négatif / séparation	disconnect, disagree, disorder, disadvantage
mis-	mal / incorrectement	misunderstand, misuse, miscalculate, mislead
re-	encore / de nouveau	redo, recalculate, redesign, resubmit, rebuild
over-	excessivement / au-delà	overload, overestimate, overheat, overcomplicate
under-	insuffisamment	underestimate, underfund, underperform
pre-	avant	preview, predict, precondition, precaution
post-	après	post-analysis, post-production, post-industrial
inter-	entre	interact, interface, interconnect, interdisciplinary
multi-	plusieurs	multidisciplinary, multilingual, multifunction
semi-	à moitié / partiel	semiconductor, semi-automatic, semi-conductor
auto-	soi-même / automatique	autonomous, automated, autocorrect
sub-	sous, en dessous	substandard, suboptimal, submarine, subsystem
super-	au-dessus / supérieur	supersede, supercomputer,

PRÉFIXE	SENS	EXEMPLES
		superconduct

2. Suffixes — Noms et Verbes

SUFFIXE	FORME	EXEMPLES
-tion / -sion	nom (action)	calculation, production, simulation, decision
-ment	nom (résultat/processus)	development, measurement, improvement
-ity	nom abstrait	efficiency, reliability, sustainability, accuracy
-ness	nom abstrait	awareness, effectiveness, robustness, usefulness
-ance/-ence	nom abstrait	performance, resistance, reference, difference
-er / -or	personne	engineer, designer, operator, supervisor
-ise / -ize	verbe	optimise, standardise, organise, specialise
-ify	verbe	simplify, qualify, modify, identify, verify
-en	verbe (rendre)	strengthen, widen, deepen, broaden, shorten
-al	adjectif	technical, mechanical, electrical, functional
-ive	adjectif	effective, efficient, innovative, productive
-able / -ible	adjectif (possibilité)	sustainable, scalable, flexible, reproducible

3. Familles de mots clés — ingénierie

VERBE	NOM (action)	NOM (personne)	ADJECTIF
produce	production	producer	productive
design	design / designer	designer	designed / designable
optimise	optimisation	optimiser	optimal / optimised

marc.vasseur@polytech-lille.fr — PEIP2 — Polytech Lille

VERBE	NOM (action)	NOM (personne)	ADJECTIF
develop	development	developer	developed / developing
automate	automation	—	automated / automatic
sustain	sustainability	—	sustainable
implement	implementation	implementer	implemented
innovate	innovation	innovator	innovative
specialise	specialisation	specialist	specialised
analyse	analysis	analyst	analytical

EXERCICES

Exercice 1 — Forme correcte du mot

Complète avec la bonne forme du mot entre parenthèses.

1. The _____ (sustain) of the project depends on long-term funding.
→ _____
2. We need to _____ (simple) the process to reduce errors.
→ _____
3. The system is fully _____ (automate) and requires no human intervention.
→ _____
4. Her approach was highly _____ (innovate) — nobody had tried it before.
→ _____
5. An _____ (optimise) algorithm was used to minimise energy consumption.
→ _____
6. The _____ (develop) of the new software took 18 months.
→ _____
7. She works in an _____ (inter) disciplinary team.
→ _____
8. The results were _____ (reproduce) across three independent studies.
→ _____
9. He tends to _____ (over / estimate) the time needed for complex tasks.
→ _____
10. The initial design was _____ (sub / standard) and had to be completely revised.
→ _____

Exercice 2 — Famille de mots

Complète le tableau.

1. produce → _____ (noun) / _____ (adj)
→ _____
2. _____ → analysis → _____ (adj)
→ _____
3. innovate → _____ (noun) / _____ (person)
→ _____
4. implement → _____ (noun) / _____ (adj)
→ _____
5. sustain → _____ (noun) / _____ (adj)
→ _____

Exercice 3 — Préfixes : sens opposé

Ajoute le préfixe correct pour former l'opposé.

1. efficient → ___efficient
→ _____
2. agree → ___agree
→ _____
3. understand → ___understand
→ _____
4. estimate (trop peu) → ___estimate

marc.vasseur@polytech-lille.fr — PEIP2 — Polytech Lille

→ _____

5. legal → ____legal

→ _____

6. load (trop) → ____load

→ _____

7. regular → ____regular

→ _____

8. connected → ____connected

→ _____

9. submit again → ____submit

→ _____

10. standard (insuffisant) → ____standard

→ _____

✓ CORRIGÉS

Exercice 1 — Forme correcte du mot

N°	Phrase / Question	✓ Réponse
1	The _____ (sustain) of the project depends on long-term funding.	sustainability
2	We need to _____ (simple) the process to reduce errors.	simplify
3	The system is fully _____ (automate) and requires no human intervention.	automated
4	Her approach was highly _____ (innovate) — nobody had tried it before.	innovative
5	An _____ (optimise) algorithm was used to minimise energy consumption.	optimised
6	The _____ (develop) of the new software took 18 months.	development
7	She works in an _____ (inter) disciplinary team.	interdisciplinary
8	The results were _____ (reproduce) across three independent studies.	reproducible
9	He tends to _____ (over / estimate) the time needed for complex tasks.	overestimate
10	The initial design was _____ (sub / standard) and had to be completely revised.	substandard

Exercice 2 — Famille de mots

N°	Phrase / Question	✓ Réponse
1	produce → _____ (noun) / _____ (adj)	production / productive
2	_____ → analysis → _____ (adj)	analyse / analytical
3	innovate → _____ (noun) / _____ (person)	innovation / innovator
4	implement → _____ (noun) / _____ (adj)	implementation / implemented
5	sustain → _____ (noun) / _____ (adj)	sustainability / sustainable

Exercice 3 — Préfixes : sens opposé

N°	Phrase / Question	✓ Réponse
1	efficient → ___efficient	in-
2	agree → ___agree	dis-
3	understand → ___understand	mis-
4	estimate (trop peu) → ___estimate	under-
5	legal → ___legal	il-
6	load (trop) → ___load	over-
7	regular → ___regular	ir-
8	connected → ___connected	dis-
9	submit again → ___submit	re-
10	standard (insuffisant) → ___standard	sub-
