

G12 — Comparatives & Superlatives

Comparaisons et superlatifs

S3 C3 / S4 C4

B1

marc.vasseur@polytech-lille.fr

🔴 En anglais, la comparaison utilise -er/-est pour les adjectifs courts et more/most pour les longs. Maîtrise aussi les formes irrégulières et les structures avancées.

1. Comparatif

TYPE D'ADJECTIF	ÉGALITÉ	SUPÉRIORITÉ	INFÉRIORITÉ
Court (1-2 syl.) : fast, big, happy	as fast as	faster than	less fast than
Long (3+ syl.) : efficient, important	as efficient as	more efficient than	less efficient than
Irrég. : good, bad, far	as good as	better / worse / farther than	—

2. Superlatif

TYPE	SUPERLATIF	EXEMPLE
Adjectif court	the + adj + -est	This is the fastest solution.
Adjectif long	the most / least + adj	This is the most efficient method.
Irrégulier	the best / the worst / the farthest	He is the best engineer in the team.

3. Structures avancées

Structure	Anglais	Note
Progression parallèle	The harder you work, the better the results.	Plus... plus... / Moins... moins...
Progression graduelle	It is getting harder and harder. / more and more complex.	De plus en plus
Double comparatif	She is far / much / a lot / slightly better than him.	far/much + comparatif = renforcement
Superlatif + Present Perfect	It is the best project I have ever seen.	Superlatif souvent suivi de PP en anglais

⚠️ Règle orthographique : big → bigger (doublement) / happy → happier (y → ier) / nice → nicer (e finale → +r).

🧠 1 syllabe → -er/-est / 2 syllabes en -y → happier/happiest / 3 syllabes+ → more/most.

EXERCICES GUIDÉS

Complète avec la forme comparative ou superlative correcte.

Série guidée A — Comparatif

💡 Court → +er / long → more + adj / than pour comparer / as...as pour l'égalité

1. This engine is _____ (fast) than the previous model.
→ 1 syllabe → faster
→ _____
2. She is _____ (efficient) than her colleague.
→ 3 syllabes → more efficient
→ _____
3. The results were _____ (good) than expected.
→ irrégulier → better
→ _____
4. This method is not _____ (effective) as the first one.
→ not as + adj + as
→ _____
5. The situation is getting _____ and _____ (complex).
→ progression → more and more complex
→ _____
6. He works _____ (hard) than anyone else in the team.
→ hard = adverbe irrég. → harder
→ _____
7. This project is _____ (challenging) than we initially thought.
→ 3 syllabes → more challenging
→ _____
8. She is _____ (much / experienced) than her predecessor.
→ much + more experienced (renforcement)
→ _____
9. The new lab is _____ (big) than the old one.
→ doublement → bigger
→ _____
10. This data is _____ (reliable) than last year's figures.
→ 4 syllabes → more reliable
→ _____

Série guidée B — Superlatif et structures avancées

💡 the + adj + -est OU the most + adj / Progression : The more..., the more...

11. This is _____ (interesting) course I have ever taken.
→ the most interesting + PP
→ _____
12. He is _____ (tall) student in the cohort.
→ 1 syllabe → the tallest
→ _____
13. This was _____ (bad) result we have ever recorded.

marc.vasseur@polytech-lille.fr — PEIP2 Remédiation Anglais — Polytech Lille

→ irrégulier → the worst

→

14. The _____ (hard) you study, the _____ (good) your results.

→ progression parallèle

→

15. It is _____ (far) we have ever travelled for a conference.

→ the farthest

→

16. She has _____ (little) patience for inefficiency.

→ little → less (comparatif)

→

17. This is _____ (significant) discovery in the last decade.

→ the most significant

→

18. The _____ (soon) we start, the _____ (early) we finish.

→ sooner / earlier

→

19. He is getting _____ and _____ (confident) as he gains experience.

→ more and more confident

→

20. This algorithm is _____ (fast) than anything previously developed.

→ much faster (comparatif + than)

→

EXERCICES — NIVEAUX A → B2+

Forme le comparatif ou le superlatif correct.

Niveau A — Fondamentaux (B1)

1. This algorithm is _____ (accurate) than the previous version.

→ _____

2. She is _____ (good) engineer we have ever hired.

→ _____

3. This project is _____ (complex) than we initially anticipated.

→ _____

4. The new laboratory is _____ (big) than the old one.

→ _____

5. He works _____ (hard) than anyone else in the department.

→ _____

6. This is _____ (efficient) method currently available.

→ _____

7. Her results are not _____ (impressive) as his.

→ _____

8. The _____ (early) we start, the _____ (soon) we finish.

→ _____

9. This machine is _____ (reliable) than the previous model.

→ _____

10. She is becoming _____ and _____ (confident) each week.

→ _____

Niveau B — Double comparatif et structures (B1+)

11. The new procedure is far _____ (easy) to follow than the old one.

→ _____

12. These are _____ (important) findings in the entire study.

→ _____

13. He is _____ (experienced) member of the research team.

→ _____

14. The _____ (much) data we collect, the _____ (accurate) our model.

→ _____

15. She performed _____ (well) than expected in the technical interview.

→ _____

Niveau C — Erreurs et traduction (B1+)

→ Corrige les erreurs.

16. She is more smart than her colleague. → _____

→ _____

17. This is the most good solution we have. → _____

→ _____

18. The more you practise, the more you become better. → _____

→ _____

19. He works more harder than before. → _____

→ _____

20. This is the more efficient method I know. → _____

→ _____

→ Traduis en anglais.

21. Les voitures électriques sont bien plus efficaces en ville que les voitures à essence.

→ _____

22. C'est le projet le plus difficile que j'aie jamais géré.

→ _____

23. Plus on automatise les tâches, plus les ingénieurs peuvent se concentrer sur l'innovation.

→ _____

24. Elle est légèrement plus expérimentée que son collègue.

→ _____

25. La qualité de l'air s'améliore de plus en plus grâce aux nouvelles politiques.

→ _____

Niveau D — Production et analyse (B2)

→ Complète librement avec une comparaison logique.

26. The new renewable energy sources are _____ than traditional fossil fuels because _____.

→ _____

27. Of all the solutions proposed, _____ is the most _____ because _____.

→ _____

28. The _____ the team is, the _____ the project will be.

→ _____

29. Automated systems are not always _____ as _____ — sometimes human judgment is _____.

→ _____

30. Write a short paragraph comparing two engineering approaches using at least 3 comparative structures.

→ _____

Score : _____ / 30 points

★ ★ Bonus — Comparatif de quantité

Complète avec more, fewer, less, more than, fewer than, less than.

→ We have _____ time than we expected — we need to hurry.

Réponse : _____

→ There are _____ engineers than needed on this project.

Réponse : _____

→ She spends _____ money on equipment than last year.

Réponse : _____

→ The new model uses _____ energy than the old one.

Réponse : _____

→ We received _____ applications than in previous years — interest is growing.

Réponse : _____

marc.vasseur@polytech-lille.fr — PEIP2 Remédiation Anglais — Polytech Lille

DEVOIR MAISON

Nom & Prénom : _____

Date rendu : _____

Forme le comparatif ou le superlatif correct.

Correction envoyée via WhatsApp la semaine prochaine.

1. Electric cars are _____ (efficient) than petrol cars in urban areas.

→ _____

2. She is _____ (hardworking) student in the cohort.

→ _____

3. This model is not _____ (heavy) as the previous version.

→ _____

4. The _____ (much) you practise, the _____ (fluent) you become.

→ _____

5. His presentation was _____ (clear) than mine.

→ _____

6. This is _____ (far) we have ever travelled for a conference.

→ _____

7. The new regulations are _____ (strict) than the previous ones.

→ _____

8. She is getting _____ and _____ (good) at data analysis.

→ _____

9. This result is _____ (bad) we have ever recorded in the experiment.

→ _____

10. The product is _____ (expensive) than we budgeted for.

→ _____

11. The _____ (early) we identify the problem, the _____ (easy) it is to fix.

→ _____

12. His approach is _____ (innovative) than anyone else's on the team.

→ _____

13. She speaks English _____ (well) than she did at the start of the year.

→ _____

14. This is _____ (challenging) project I have ever worked on.

→ _____

15. Automation is making certain jobs _____ and _____ (rare).

→ _____

Score : _____ / 15 points
